

HEY DETECTIVES! WE ARE SO IMPRESSED WITH THE NUMBER PATTERNS YOU NOTICED ON THE HUNDREDS CHART LAST WEEK.

JUST LIKE DANIEL FROM POWERLESS, YOU USED YOUR KEEN DETECTIVE SKILLS TO FIND PATTERNS AND WROTE WORDS AND EQUATIONS TO EXPLAIN WHAT YOU DISCOVERED.

I HAVE AN IDEA, TODAY, INSTEAD OF LOOKING FOR PATTERNS LET'S MAKE THEM!

CREATE YOUR OWN REPEATING NUMBER PATTERN. ONCE YOU HAVE IT FIGURED OUT, RECORD IT USING NUMBERS AND PICTURES. WHAT ARE THE RULES FOR THE PATTERN? WHAT EQUATIONS COULD YOU WRITE TO EXPLAIN THE RELATIONSHIP BETWEEN THE NUMBERS? USING NUMBERS, WORDS AND PICTURES, DOCUMENT YOUR THINKING.

FOR EXAMPLE, MY PATTERN IS 1, 3, 6, 8, 11. MY PATTERN IS ADD TWO, THEN ADD THREE AND REPEAT! WHAT'S YOUR PATTERN?
