

Agents! Your videos were fantastic! I learned a lot about Seattle and your interests! What became clear to me is that some background information about Seattle's history would be helpful and I have just the place for you....

The Museum of History And Industry (MOHAI)!

You will have an hour tomorrow to tour MOHAI's exhibits and gather more information about Seattle.

It is TIME for you to think about... TIME! To plan your hour at the museum wisely, you must understand the many ways to break it up and use it.

Today, make a TIME KEY. If a yellow hexagon represents 60 minutes, please determine the other block values. Create a key to show your findings.

Over and out.....
