

Good morning, mathematicians!

The FWFFC22 was moved by your monorail math last week! They need some more help. This week, they would like us to re-envision the window design for the monorail cars.

Windows can be divided up in many ways.

What can you discover about the window tiles below?
Can you find any relationships among the tiles? Record in fractions your findings with drawings, equations and labels.

- Tech pictures - thaumatropes
- WW stories
- MV reflection
- MV samples
- Explode the moment writing
- Explode the moment illustration
- HW diploma
- HW picture
- FWFFC22 reflection
- DEAR samples
- Reading reflection
- Lit reflection
- Eye poem & picture
- Self portrait photo
 - Inside & outside writing
- Self portrait picture
- Nature Bridge pictures
