

October 9, 2012

Your treehouses are looking great! We need to ensure your plans are complete and **CLEARLY DOCUMENTED** so we can send the plans to the contractors this afternoon.

Last week you designed a treehouse plan that included:

1. A clearly labeled floor plan with dimensions, area and perimeter.
2. An inventory of all of your building materials with their costs.
3. The total cost of all of your supplies.

Your **next step** is to use your remaining budget to purchase **accessories** for your treehouse. We have a variety of accessories to choose from and many special orders can be accommodated upon request. Check in with a teacher with questions. **Remember, you have \$650.00 to spend.**

Treehouse accessories:

Zipline.....	\$87.70	Slide.....	\$36.50
Hammock.....	\$28.36	Trampoline.....	\$120.00
Rope Ladder.....	\$26.00	Fire Pole.....	\$29.35
Rope.....	\$5.75	Tunnel.....	\$32.85
Tire Swing.....	\$53.00	Diving Board.....	\$97.76

Once you have completed your plans, please see a teacher to find out about your next job, as you have been commissioned for additional treehouse research!
