

Good Morning!!

Harold has wandered into a fairy tale...

Taking a moment to breathe in the fresh air, he noticed, "Beautiful flowers popped up all over the enchanted garden, more than Harold was able to count, all in gorgeous bloom."

He would love for you to add your own flowers to the garden! The garden is not only enchanted it is also symmetrical!

Take a look at these two flowers. One is symmetrical and the other is not. What makes a flower symmetrical?

Now grab a sheet and use the pattern blocks to build symmetrical flowers for Harold's garden!
