

Math Vitamin Good morning!

"Ouch! That really hurts," cried Juniper Mouse.

"You've got burrs in your furs," Jasper Mouse replied. "A burr is like a hitch-hiking seed, clinging to your fur, traveling to a new destination. Some people think it was the inspiration for velcro. Pretty seed-sational, don't you think?"

"Look, you have some too Jasper," Juniper noticed.

Juniper, Jasper, Jack, Jen, Jane, Janet, and José each have the same number of burrs, stuck to their furs. See a teacher to find out how many burrs are on each Mouse. How many burrs are on the mice all together?
