

Dear Nesting Box Designers,

Hello from Cooper Island! Thanks for helping out with my designs yesterday. A little black guillemot told me you also made some fantastic nesting box designs of your own.

I would love to see some of them, but man-oh-man, it is expensive to send geo-boards in the mail!

Please build some more creative designs and transfer them to paper. Then label the shapes and different parts of your nesting boxes. I look forward to getting your designs in the mail!

Love,

Betty Blueprint
