

What a great trip we had yesterday to Jubilee Farm! Farmer Ryan took us on a hayride through the fields and showed us the blooming strawberry patch. Next month, it will be full of delicious ripe fruit! Just as we helped pack the asparagus crop on Monday, let's **evenly divide** the strawberries into cartons.

Your teacher today will give you a total number of strawberries to **divide**. Find out how many will fit in each carton so that each box holds the same amount.
