

Good morning!

We're off to see the play...

Please try to use the bathroom  
and then grab a snack  
to munch on while trying out an  
**ESTIMATION!**

Before we go,  
can you **estimate**, or make an educated guess,  
about how many Cuisenaire rods are in the jar?

Can you **estimate** the total **value** in the jar?

Grab a sheet, write down your estimates,  
and hand it to a teacher!
