

Good Morning!

Tomorrow we head to the Seattle Art Museum
For a tour of Alexander Calder's artwork

Big and tall
or short and small
some of Calder's art moves
and some hangs from a wall
If you want the mobile to hang straight
You must make sure to **BALANCE** the weight

Using Cuisenaire Rods, find more combinations that you could use to make a mobile with two **BALANCED** or **EQUAL** sides. Be sure to test your theories on the balances.
