

# SNOW TUBING FASHION SHOW!

Tubing was AMAZING, but not all of our outfits are finished yet! Grab your Tuber and finish designing your gear! If you did finish, create a Ski Buddy to join your Tuber!

You'll need to use a ruler or other measuring tool to create several different body parts for your outfit. Be sure to take special notice of the types of measurement that each choice uses. Remember, a centimeter is VERY different than an inch!

Each body part has several different arrays to choose from. Use a ruler and a pencil to create these arrays out of paper. When you have an entire body, assemble it using glue!

Jacket arms: 2x6 cm, 3x7 cm, 1x4 in or 1.5 x 5 in

Jacket Body: 3x5 in, 4x6 in, 4x8 cm or 6x9 cm

Hat: 1x3cm, 2x4 cm, 3x3 cm or 1x1 in

One Boot: 2x3 cm, 2x4 cm, 1x1.5 in or 2cm x 1.5 in

Pant Leg: 1x5 in, 1.5x4 in, 2x6 cm or 1in x 7 cm

One Glove: 2x2 cm, 1in x 3cm, 1x1.5 in or 1.5cm x 1in

When you finish, don't forget to record your building on a Math Vitamin sheet!
