

WELCOME TO THE  
**Animals of Central Park Annual picnic!** (ACPRAP)

What a splendid day for a picnic! I could really use your help figuring out our picnic blanket seating arrangements!

All kinds and sizes of animals are coming to today's picnic in Central Park! Each picnic blanket holds only one type of animal at a time. These animals like to have equal shares of the blanket.

Choose a picnic blanket shape and a group of animals from the guest list. Try folding your blanket into enough equal parts to fit those animals, like this blanket for the raccoons!

*Guest List*

-  **2** raucous raccoons
-  **4** scrappy squirrels
-  **8** boisterous birds
-  **16** army ants

How can you fold another shape into equal parts? Then try folding a picnic blanket into equal parts for other guests. **Have fun, picnic planners!**
